

Crib Death

By Giulia Ottaviani

Springer Okt 2010, 2010. Taschenbuch. Book Condition: Neu. 235x155x9 mm. This item is printed on demand - Print on Demand Titel. - Crib death (SIDS) is the most frequent cause of death for infants during the first year. A systematic study of the autonomic nervous system and cardiac system has been performed on a large number of infants and fetuses who died suddenly and unexpectedly, as well as in age-matched control cases. The neurological and cardiac findings are described here, and the relationship between SIDS and unexplained fetal death is discussed. 168 pp. Englisch.
