EXERCISES IN LOGIC (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Exercises in Logic This collection of exercises is mainly intended for the use of candidates offering Logic at such examinations as the Matriculation and Intermediate Examinations of London University, but it will be found useful also by those who are pursuing their course of study further with a view to Honours. The arrangement of the matter has been based upon that in the Intermediate Text-Book of Logic, by Professor Welton and Mr. A. J. Monahan, but this will not prevent the book from being used with any other text-book. Each chapter consists of a short demonstration with specimen answers to typical problems of the kinds which most frequently present themselves to the student of Logic; and these demonstrations are followed in each case by a selection of exercises, many of which have been actually set at examinations. The last chapter consists of a large collection of miscellaneous examples, including a number of arguments to be analysed.
