Outskirts Press, United States, 2012. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****. What s the matter? You shooting blanks? These words from his brother-in law prove prophetic after Denny Ceizyk learns that his biology is not up to the task. His Hollywood vision of making love to make a baby is replaced by the reality of doctors, plastic semen sample cups, public masturbation, and the irrepressible sight of a large dildo-ish ultrasound wand. Denny has become a player in some sordid medical menage a-trois- the one getting the least action. Dr. David Sable, co founder of the Institute for Reproductive Medicine and Science at Saint Barnabas Medical Center, said something to Denny that had a profound effect on him: For a woman, having a baby is as basic a biological need as eating, breathing, or sleeping. Once Denny begins to understand this, he realizes he could never fully comprehend the primal biological urge motivating his wife, because he is not naturally hardwired to ever grow a child. It isn t until Denny tells Lisa that he will never stop trying to have a baby with her, no matter what it takes, that their last frozen, poor-quality embryo finds her roots...
