Geometer's Sketchpad with its simple operability, excellent presentation, convenient exchange of sex, strong exploratory and timely feedback and other features have been widely used in mathematical courseware production. Institute of skilled application Geometer's Sketchpad make courseware should be one of the basic skills of mathematics teachers. Recently have read Tangzhi Na teachers editor of the textbook - the first of the computer-aided mathematical courseware production tutorial examples. I realized that another function of the Geometer's Sketchpad: analysis of courseware. This to explore the courseware ideas on the use of reverse analysis courseware thinking. By understanding the properties of geometric objects, their parent objects, child objects, and generating relations to analyze the production of ideas of others courseware. This thinking not only allows producers learn to produce courseware also allows producers to produce courseware to meet their own needs on the basis of the ideas of others to produce courseware. The production process is an exercise in the highest level of courseware production. Authorware papers, teaching materials, production of the courseware tutorials. The...
