This item is printed on demand - Print on Demand Neuware - Research paper from the year 2011 in the subject Medicine - Hospital Environment, Clinical Medicine, grade: 4 on 4 scale (A), , language: English, abstract: Poorly controlled or uncontrolled diabetic patients present several challenges and ethical dilemmas to health care professionals. The second chapter involves the use of SPSS to identify which of the two diets used in an experiment on laboratory mice resulted in the greatest weight loss among the mice tested, the results of which may be used to suggest the best choice to diabetic patients with weight problems. Furthermore, statistical tests are employed on the results of two experimental sleeping pill medications (dextro hyoscyamine hydrobromide and laevo hyoscyamine hydrobromide) to determine which of the two sleeping medications contribute more to an increase...
