

The Quantitative Reading of Latin Verse (Classic Reprint)

Filesize: 1.66 MB

Reviews

It is one of the best books. Yes, it can be performed, nevertheless an amazing and interesting literature. You may like the way the author publishes this ebook.

(Wava Hettinger)

THE QUANTITATIVE READING OF LATIN VERSE (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Quantitative Reading of Latin Verse It is said by those who have given much time to the study of Latin poetry and the laws of Latin versification, that the Roman poet attached not less importance to the form in which his thoughts were cast than to the thoughts themselves, that he believed it to be just as necessary for the dress to be beautiful and appropriate as for the language it clothed to be polished and select. It is known, too, that great care in the choice of vocabulary was made necessary by the limitations imposed by the demands of the verse-rhythm, which absolutely precluded the use of all words that would not harmonize quantitatively with the metrical structure of the verse, and that, as a result of this dependence of the language on the form and the consequent difficulty of selection, higher finish and greater accuracy were attained. In view of these facts, it is evident that a thorough understanding and genuine appreciation of the work of the Roman poets can never be the possession of those who choose to ignore the importance of the form-side. It is worth while to seek to have this intimate knowledge of the poet s work; the time and labor one must give to such a study are profitably employed. Great pleasure is experienced in the study of art, and much benefit is derived from it. It is thought to be highly profitable to acquaint one s self with even the most minute details of the works of the master sculptors and painters and architects. Such knowledge is considered an important part of a broad and finished...
